Coronavirus is a Fraud

March 28, 2020

This is the biggest public hoax since 9-11. After 9-11 we had 'architects & engineers for 9-11 truth.' Now we have 'physicians &

experts for coronavirus truth.'

Medical professionals describe just how Covid-19 is the seasonal flu "sexed up."

This contrived panic exposes the establishment players for the traitors they are.

"As flies to wanton boys are we to the Rothschilds; They kill us for their sport."

(Apology to Shakespeare's King Lear)

Latest! Bank robbers! Trillion dollar stimulus passed. Now CDC's Fauci says it's the flu. See link below article.

In summary, we have another flu season virus, associated with the death of those nearly always elderly or gravely ill, as usual with the 300,000 to 500,000 flu-associated deaths each year.

And as with the flu, we have tens of millions who may be nominally touched by the virus, mostly with zero or minor effects in healthy or younger people.

But this time, a panic is created over numbers not really different from flu season ranges -

Via aggressive deception re 'deaths from coronavirus', when mostly it is just having the virus along with severe lethal ailments, the same way that people dying of heart trouble, cancer, or diabetes also can have cold or flu ... one more factor tossed in for a weakened individual who may not have long to live anyway, but not 'THE cause' of dying.

And to add to the panic and social destruction, we have an aggressive removal of healthcare professionals from the scene, nurses and doctors not allowed to practice 'because they have

the virus and need to be quarantined', imploding health care delivery around the world, leading to more deaths.

From the Swiss doctor report cited above:

"Most major media falsely report that Italy has up to 800 deaths per day from the coronavirus. In reality, the president of the Italian Civil Protection Service stresses that these are deaths WITH the coronavirus and not FROM the coronavirus. In other words, these persons died while also testing positive [not necessarily causal.]

Between those who died *from* the coronavirus and those who died *with* the coronavirus, it is not clear whether the person died from the pre-existing chronic diseases.

Renowned Italian virologist Giulio Tarro argues that the mortality rate of Covid19 is below 1% even in Italy and is therefore comparable to influenza. The higher values only arise because no distinction is made between deaths with and by Covid19 and because the number of (symptom-free) infected persons is greatly underestimated.

Stanford Professor John Ioannidis showed that the age-corrected lethality of Covid19 is between 0.025% and 0.625%, i.e. in the range of a strong cold or the flu.

A Japanese study showed that of all the test-positive cruise passengers, and despite high average age, 48% remained completely symptom-free; even among the 80-89 year olds 48% remained symptom-free, while among 70 to 79 year olds it was an astounding 60% that developed no symptoms at all.

The Italian example has shown that 99% of test-positive deaths had one or more pre-existing conditions, and even among these,

only 12% of the death certificates mentioned Covid19 as a causal factor.

Average age of the positively-tested deceased in Italy is currently about 81 years. 10% of the deceased are over 90 years old. 90% of the deceased are over 70 years old.

80% of the deceased had suffered from two or more chronic diseases. 50% of the deceased had suffered from three or more chronic diseases.

Less than 1% of deceased were healthy persons, and sometimes a hidden ailment is discovered, e.g., a young person 'dead from Covid-19' turned out to have unseen leukemia.

Northern Italy has one of the oldest populations and the worst air quality in Europe, which had already led to an increased number of respiratory diseases and deaths in the past. Italian newspaper Corriere della Sera points out that Italian intensive care units already collapsed under the marked flu wave in 2017/2018.

Argentinean virologist and biochemist Pablo Goldschmidt explains that Covid19 is no more dangerous than a bad cold or the flu.

Dr Goldschmidt speaks of a 'global terror' created by the media and politics. Every year, he says, three million newborns worldwide and 50,000 adults in the US alone die of pneumonia, the main death throes of 'Covid-19.'

German Professor Karin Moelling, former Chair of Medical Virology at the University of Zurich, stated in an interview that Covid19 is "no killer virus" and that "panic must end".

Countries like South Korea and Japan that introduced no lockdown measures have experienced near-zero excess mortality

in connection with Covid-19.

Swiss deaths so far were also high-risk patients with chronic diseases, an average age of more than 80 years and a maximum age of 97 years.

According to all current data, for the healthy general population of school and working age, a mild to moderate course of Covid-19 can be expected."

Then Fauci and Cuomo do a complete 180. Covid-19 is less fatal than the ordinary flu. The people have been violated. (Thanks Marc)

"The overall clinical consequences of Covid-19 may ultimately be more akin to those of a severe seasonal influenza (fatality 0.1%) or a pandemic influenza rather than a disease similar to SARS or MERS, which have had case fatality rates of 9 to 10% and 36%, respectively."

Comments for "Coronavirus is a Fraud "

Tony E said (March 28, 2020):

The question I don't hear anyone ask, "Is this years garden variety flu numbers lumped in with the corona virus? According to 2018-2019 CDC estimates 35.5 million reporting having flu symptoms , 16.5 million going to a healthcare provider for their illness, 490,600 hospitalizations and 34,200 deaths, the number doubles if you add in viral pneumonia. The demographics of the flu nearly mirrors Corona virus, add into that hyped up numbers and panic and fear and one can see how the ignorant masses can be easily fooled. I believe Vladimir Lenin said , " If you tell a lie big enough and repeat it over and over it becomes truth"

The coronavirus may simply be a new viral strain not much different than 2018's H1N1 or 2019 H3N1 it is simply a "strawman" or mirror masquerading as this horrible killer. If we parse the numbers it is evident, The numbers don't lie.

The Corona Virus is real. What's questionable is the CDC's recommended strategy in fighting this war.

I do believe, as mentioned here that South Korea and Japan have had low fatality rates without going into a national quarantine. You don't win any wars by staying in your house with the doors locked. You also don't win any wars by telling yourself that there is no way to beat the enemy without government approved drugs or vaccines. Becoming a quarantined prisoner of this war is self defeating.

As long as the FED keeps juicing the stock market and the wealth of the super rich is not too drastically affected we all could be stay at home moms for a long time to come.

Once the money flow stops a more common sense approach to fighting this war will be put into motion and real fast.
